Motivated Full Stack Developer with hands-on experience building modern, scalable web applications using React, Next.js, Node.js, and TypeScript. Proficient in AI-assisted development — including Claude API integration and working with Cursor — enabling faster delivery and smarter solutions. Combines strong technical depth with real-world leadership, having managed a team of 33 technicians in a fast-paced environment. Focused on clean architecture, performance, and delivering great user experiences.

## TECHNICAL SKILLS

|            |                                                                           |
|------------|---------------------------------------------------------------------------|
| Frontend   | React, Next.js, TypeScript, JavaScript, TailwindCSS, Material-UI          |
| Backend    | Node.js, Express.js, REST APIs, Prisma ORM, MongoDB, MySQL                |
| Tools & AI | Claude API, Cursor IDE, Git, GitHub, Vercel, Heroku, Cloudinary           |
| Languages  | Hebrew (Fluent), English (Very Good), Georgian (Fluent), Russian (Fluent) |

## EXPERIENCE

### Team Leader – Technical Support

2024 – Present

*Dangot OmnIQ*

- Lead and manage a team of 33 technicians, setting performance benchmarks and driving service improvement.
- Own daily operations including task allocation, scheduling, and priority escalation for critical issues.
- Serve as the primary escalation point for complex problems, delivering fast, effective resolutions.
- Introduced workflow optimizations that reduced average ticket resolution time and improved throughput.
- Mentor junior technicians, fostering a culture of accountability and technical growth.

### Integration Manager

2021 – 2024

*One Systems*

- Managed end-to-end integration processes between enterprise systems and client environments.
- Collaborated with developers, architects, and support teams to plan, implement, and validate integrations.
- Monitored system performance post-integration and resolved issues to minimize downtime.
- Acted as technical liaison between clients and internal teams, translating business needs into specs.
- Developed deep knowledge of system architecture and APIs applicable to full stack development.

### Laptop Hardware Technician

2015 - 2021

*Ivory*

- *I worked at Ivory from 2015 to 2021, where I was part of a laptop laboratory team.*
- *During this time, I gained strong hands-on experience in diagnosing, repairing, and maintaining laptops, as well as*
- *working with various hardware and software systems.*

## PROJECTS

---

### Full Stack E-Commerce Platform

React · Next.js · Node.js · MongoDB

- Built a complete e-commerce app with product catalog, cart, user auth, and Stripe payment integration.
- Implemented server-side rendering with Next.js for improved SEO and page load performance.
- Designed RESTful API with Node.js/Express and modeled data with MongoDB.

### Task Management Dashboard

React · TypeScript · Prisma · MySQL

- Developed a real-time task tool with drag-and-drop boards, role-based access control, and collaboration.
- Used Prisma ORM with MySQL for type-safe queries and schema migrations.
- Styled with TailwindCSS for a responsive, accessible UI across all screen sizes.

## EDUCATION

---

Real-Time College

### Full Stack Dev Program

*670-hour intensive: React, Node.js, Express, TypeScript, Databases.*
